## Monitor School Fair Thursday September 15th.

### Local Happenings

E. Evenson, Saskatoon, Supt. of the Galvin Lumber Yards, spent a few days in town this week.

The local School opened for the Fall term, on Monday, and 41 scholars responded to the roll call.

Martin Liknes is building a house on the east side of Council St.

Joe Lewis unloaded a new threshing rig, last week, and is busy pounding out the year's supply of grain.

While the present stretch of fine weather continues the streets of this fair town will have a deserted appearance in the day time. Things brighten up somewhat in the evenings, the farmers being too busy to get into town very often. Another week or so will bring about a change and then the town will be a busy spot, with the wheat rolling in.

There is still some cutting to be done, in this district, but it will be all completed, in about ten days.

The heavy wind, on Tuesday, made threshing anything but a pleasant job and forced most of the machines to shut down during the afternoon.

U. A. Jones, Edmonton, is in charge of the local Station during the absence of P. Moth who is away on his annual vacation.

M. Liknes has purchased a town lot from the Galvin Lumber Yards.

Duck season opened up this morning, with a bang. The local sports were out in full force for the event.

Dick McLaren returned from Edmonton, on Tuesday, where he was under the doctors care for several weeks. Dick is now getting along nicely.

There will be a wrestling and boxing show, in the Big Hall, on Saturday night of next week when Babe Ingersol will meet Fred O'Hara. There will also be a five-round boxing bout between two local boys.

S. Forsythe, of Consort, will be the referee.

H. Ingersol, who last winter met and defeated some of the best men in the middle-weight class in the States, in accepting O'Hara's challenge says that he is not in training, and that while O'Hara is a free lance and in the game steady, he intends to go in and do his best to win. Babe wants a return match if he is defeated.

### TWO DELIGHTFUL RESORTS

IN THE

## CANADIAN PACIFIC ROCKIES

### LAKE WINDERMERE CAMP

A Bungalow Camp Built Among Fir Trees on a Terrace at the Edge of Lake Windermere, a Lovely Warm Water Lake Lying in the Beautiful Columbia Valley.

A Camp where you can enjoy Mountain Scenery, with every Form of Outdoor Diversion.

### LAKE WAPTA CAMP

Reached from the Main Line of the Canadian Pacific Railway at Hector, Beautifully Situated and Within Easy Reach of Yoho Valley, Kicking Horse Canyon, Emerald Lake, Yoho Falls, and Lake O'Hara, Where Some of the Most Magnificent Scenery is to be Seen.

Hector, B.C. only a Short Side Trip from Golden to Lake Windermere. Information and Full Particulars will be gladly furnished on application to any Agent of the

## CANADIAN PACIFIC RAILWAY

### Tax Sale

Sale of lands in the municipal District of Stewart No. 302.

Notice is hereby given that certain lands in the Municipal District of Stewart No. 302 will be offered for sale for arrears of taxes and costs at Minor School N.E. 26 33 6 4 on Thurs. the 15th. day of December 1921.

The first week in November a full list of said lands may be found in the Monitor News and the Consort Enterprise or a list of the said lands may be obtained on application to me.

Dated at Monitor the 13th day of August 1921

Jas. Norton  
Secty.

### The Church and Its Work

By The Rev. W. S. Wickenden

#### The Kingdom of Heaven

A person becomes a citizen of the Kingdom of Heaven when he is born again. He is then made a partaker of the Divine nature. His new heavenly nature shows itself in heavenly acts, such as love, forgiveness and mercy. These acts are the evidences of citizenship in the Kingdom of Heaven. Because a Christian realises that he has been forgiven his sins, he will seek to forgive those who trespass against him. Because he knows by experience God's love and mercy in Christ, he will seek to be of a loving and merciful spirit. Of such is the Kingdom of Heaven.

What wheat that has been threshed this year averages out at from 12 to 21 bushels to the acre. A considerable quantity of grain has already been shipped out of Monitor and with all five elevators open things should be kept moving all during the season.

Every town has its share of those who love to exchange idle talk, and the dividing line between that and scandal is so easily crossed that it is not surprising that it is invariably crossed. Of all contemptible beings the scandal monger is probably the meanest, women ranging very largely in this category—and the male of the species the most contemptible of the lot. Dante in his "Inferno" well placed the scandal-mongers in the ninth gulf. Were they all consigned there the earth would be a vastly more pleasant place to live in.

There is scarcely one good or extenuating trait about the scandal monger, male or female.—Ex.

### School Fair Notes

It is expected that there will be about 350 scholars present at the School Fair on the 15th of this month.

There is keen rivalry for the various prizes offered and a big time is looked for that day.

This year has been one of the best for vegetable growing and there will be a wonderful exhibit in this class alone.

A number of children have entered in several classes and all strive hard to capture the honors.

There will also be a large and interesting exhibit of the

regular school work including drawing, writing, composition, etc.

The classes for poultry and live stock will be well filled this year.

### NOTICE

All outstanding accounts due the Monitor News are to be paid at the News office, or by cheque payable to the News, Monitor.

### Local Happenings

Mrs. R. Cramer was a visitor in Consort last week.

J.B. Hicks and wife returned on Saturday after an extended visit to the Eastern States.

Dr. Mason is having a four roomed bungalow erected at the head of Main St. R. Cramer has the contract.

Mrs. F. Jacques and son Earl of Woodstock Ont. are visitors at the home of P. Woodrow.

The Misses Florence and Helen Anderson spent a few days in Stettler, returning home on Saturday.

The cement side walk around the Bank corner has been completed and was opened to the public on Saturday.

Roy Cramer has about completed building operations on his new home on Council St.

W. S. McClellan arrived in town last week from the East.

Practically all the threshing rigs in this district are now busily engaged in the wheat fields. The grain is of a good sample and color.

The first car loads of grain left Monitor last week when Geo. Earl shipped out two cars.

The Imperial Oil rig has been shut down for over a week owing to the breaking of their cable. A new one has arrived and work is on the go again.

The West Regent is going a long fine since the change was made from a rotary to a standard rig.

Mrs. Walter Penny left Thursday on a visit to her former home at Moose Jaw.

A few of the young people in town attended the dance held at Gooseberry Lake last Friday.

Rural phones to the number of 15 are now linked up with the local office and excellent service is being given the subscribers. There are seven phones on the line in Ince district while the one south of town has six, several phones being connected direct to the already existing lines to Consort and Kiriemuir and on the one between here, New Bridgen and Sedalia. Before winter sets in it is expected that Monitor will be connected up with about fifty rural phones.

Mr. Talbot of the Youngstown school of Agriculture staff, spent several days in the town and district in connection with the coming School Fair.

## Disarmament and the Individual Citizen

The outstanding question in world politics today is disarmament—the reaching of some international understanding which will put an end to the feverish race between nations to outdo each other in the raising and equipping of enormous armies, the construction of great navies, the inauguration of powerful aerial squadrons, and the development of chemicals and the sciences along channels of destruction, and, with a cessation of such unholy and savage activities bring about an enormous lessening of the burden of taxation and the devotion of national revenues to the improvement of the physical and educational well-being of the people.

Everybody is concerned in the consummation of such an international understanding, but the average man and woman nevertheless looks upon the problem of arriving at an agreement as being the sole business and responsibility of Governments and statesmen; in a word, of those for the time being in authority in their respective countries. As a result, the average man and woman takes only an academic interest in this outstanding question, and proceeds daily to think, speak and act in a manner which operates to make the realization of world disarmament extremely difficult.

With the defeat of Germany and the abdication of the Kaiser, the overthrow of Russian Czarism, the smash-up of the Austro-Hungarian monarchy, and the breaking-up of the old Turkish Empire, the last remaining strongholds of old world militarism and autocracy came to an end. With the exception of Russia, which is still undergoing the birth pangs of its new regeneration, the leading nations of the world are now under a democratic form of government. That is to say, the people are themselves the rulers and the arbiters of their own national fate. They, and they alone, can definitely and permanently decide upon national policy. Governments are the creatures of the people, and are controlled, made and un-made by the votes of the people. To an ever increasing degree, too, the women have an equal voice with the men in determining the fate of Governments and the national policies of their country.

If the people once make up their minds that there shall be disarmament, that they will no longer pour out their hard won earnings to be used to supply machines of war wherewith to destroy their fellowmen, Governments will, because they must, obey. There is, however, it must be admitted, a fighting instinct inborn in the whole human race. It cannot be wholly eradicated, nor would it be well for the race if it were. It is the instinct which leads the race to push ever onward and overcome seemingly insurmountable obstacles. It is the fighting instinct which makes for progress. But the time is long since past when that instinct should be so perverted as to result in a striving for mastery of others through the brutal, animal method of destruction—the employment of strong arm methods against the weak.

After all, what is one of the most fruitful sources of national ill-will, leading to the making of warlike preparations by one racial group of people against another? Is it not to be found in the pin-pricking policy which so many people thoughtlessly indulge in at the expense of the people of another race, color or nationality? The people of one country make ridicule of the habits and customs of another. This is resented and a feeling of animosity and ill-will is engendered whereas a mutual recognition of each other's good qualities, which is just as easy of cultivation, would quickly develop a feeling of admiration.

The newspapers of a country quickly reflect the views and feelings of the people among whom they circulate. If there is a pin-pricking tendency among the people, it is not long before the press is engaged in it, and the sharp sayings of the press in one land are quickly seized upon by the press in another country, and soon a wordy warfare is on stirring up the passions and prejudices of one nation and people against another, and forever cultivating ill-feelings by raking up all the old quarrels and troubles of bygone ages. Visitors from a foreign country are chagrined and humiliated by careless remarks about their country, flag or people, and they return home entertaining anything but cordial feelings towards the country in which such remarks are uttered. Thus, from comparatively trivial cause, there arise those national misconceptions and distrust of other peoples which, when some difference of opinion occurs between two countries, are quickly fanned into a flame and a condition of public opinion created which makes it extremely difficult, if not impossible, for the Governments of the opposing countries to make necessary compromises in order to reach an amicable settlement. And it is against just such contingencies that armaments are maintained.

The ordinary citizen can, therefore, do much to bring about world disarmament by merely keeping a close watch upon his tongue and by steadfastly refusing to indulge in, what is after all more or less senseless and certainly utterly futile, carping at and criticism of other nations, races and people.

## ABLE TO DO HER WORK

After Long Suffering Mrs. Peasey Restored to Health by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I suffered with irregular menstruation, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down pains, so bad I sometimes thought I would go crazy and I seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends and if these facts will help some poor woman use them as you please.—Mrs. J. F. PEASEY, 387 King St., Toronto, Ontario.

If you are one of these women do not suffer for four or five years as Mrs. Peasey did, but profit by her experience and be restored to health.

Patronize your local merchant and thereby help to build up your home town and community.

W. N. U. 1383

## Many American Sailors

Over Seven Thousand Enter Canada From U.S. in Six Months

A total of 7,110 persons entered Western Canada from the United States during the six months ending June 30, 1921. They brought with them personal wealth to the value of \$2,445,804, and effects worth \$702,453. Out of the total number of immigrants, 2,600 gave their occupations as agriculturists, and will engage in farming on the prairies. Of the total 4,892 were United States citizens, while the balance, 2,218 were composed of Britishers, Frenchmen, Canadians, and Scandinavians.

Probably.

Father (after a long search)—"Well, here it is. I wonder why one always finds a thing in the last place in which he hunts?"

Boy—"I 'spect it's cause when folk finds it, they stop hunting."—Dublin Weekly Times.

## POSSIBLY YOUR OWN WIFE

She may not look so young and pretty as she used to. If her cheeks are hollow and pale, if she is tired and nervous, her system needs a good regulating with Dr. Hamilton's Pills a real medicine that is noted for restoring the bloom of health to sickly girls and women. Dr. Hamilton's Pills tone up the entire system. Complexion quickly becomes rosy, spirits rise, strength increases daily. Health, vigor and good looks will soon return to a faded woman, if she uses Dr. Hamilton's Pills. Sold everywhere 25c per box, or from the Cataract House Co., Montreal.

Looking For Work.

Tom—"Surely you ain't lookin' fer work, Bill?"

Bill—"Oh, ain't-I! The missus gets the bloomin' sack, an' then she 'as me up at nine o'clock to find 'er another job!"

## GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or, if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Every dollar spent in your home town is a boost for the community.

For years I have never considered my stock of household remedies complete unless a bottle of Minard's Liniment was included. For burns, bruises, sprains, frostbites or chilblains it excels, and I know of no better remedy for a severe cold in the head, or that will give more immediate relief, than to inhale through the nasal organ.

And as to my supply of veterinary remedies it is essential, as it has in very many instances proven its value. A recent experience in relation of a valuable cow's udder has again demonstrated its great worth and prompts me to recommend it in the highest terms to all who have a herd of cows, large or small. I can say in saying among all the patent medicines there is none that covers as large a field of usefulness as does Minard's Liniment. A real trusty good for man or beast. CHAS. K. ROBBINS, Chebogue Point.

A desire for easy work or no work at all is what ails the whole human family.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

J. Fenimore Cooper couldn't write unless he had gumdrops to chew. He bought them in large quantities, and as he munched them he evolved the stories for which he is famous.

## Catarrhal Conditions

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood upon the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE gives the patient strength by improving the general health and assists Nature in her work. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

If man's organs had been formed on the same plan as those of a canary, he would, barring accidents, live to 300 or 400 years.

Minard's Liniment Lumberman's Friend

## Farmer's Wife Pays Debt Of Gratitude By Relating Experience

"If I could say just what is in my heart to say about Tanlac, everybody who suffers like I did would go out and get a bottle at once," said Mrs. A. Pieper, wife of a well-known farmer living at Cottonwood, Sask.

"For years I had indigestion so bad that I couldn't eat a thing without suffering misery afterwards. Nothing agreed with me, and at times I was so bloated up with gas I would have awful smothering spells. My nerves were in a terrible state, and I was bothered a good deal with constipation. I also had violent headaches, and at nights slept so little I never

felt like getting out of bed in the morning.

"Tanalac benefited me in every way and I feel like a different person now. I eat three hearty meals a day and never have a sign of indigestion. My headaches are gone and I sleep all night without waking, and when I get up in the mornings I am as bright and cheerful as I was when I was a girl. I feel I owe a deep debt of gratitude to Tanlac, and the only way I know how to repay it is to tell people about what it did for me."

Tanalac is sold by leading druggists everywhere.

## Sodium Sulphate Deposit

Company Developed to Exploit Discovery Made Near Wainwright

A large deposit of sodium sulphate has been discovered on Baxter Lake, east of Wainwright. From analyses it appears that the lake itself is strongly impregnated with this chemical, while a test made at the lake's edge gave thirty-two per cent. sodium sulphate. A company has been developed to exploit the find.

If a woman's watch stops every time she looks at it she is foolish to waste money on cosmetics.

Praises this Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this remedy at the first warning of trouble. Its use is simple, its cost is slight and it can be purchased almost anywhere.

Blind for the whole 114 years of her life, said to be the record period of sightlessness, an Irishwoman recently died in a Kerry infirmary.

## ASPIRIN

Only "Bayer" is Genuine

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoacetic acid ester of Salicylic acid.

Ninety per cent. of the world's total output of real lavender oil comes from the vicinity of Lyons, France.

## WEEDS

England imports annually \$500,000,000 worth of Hams and Bacon, for which she pays cash. That \$500,000,000. should be produced from Weeds, waste, by-products of farms, and odd time, as chores, or off time from other farm operations. Denmark with expensive land gets a big slice of that money, just out of waste and unsalable grains. Canada with cheap land, and lots of it, gets very little of that cash, and Monitor District with her many wheat failures but good feed producing land, gets none of it; in fact, does not produce enough hogs to eat, and buys hard, ham and bacon. The judicious use of Pig weeds, alfalfa, sweet clover sunflowers, Rye, sheaf oats, corn stalks silage, and frozen, rejected, weedy, unsalable grain will finish them; then have your beef, hog and sheep ring for killing, first, for home use, then a bee in each community to kill and dress the hogs in winter, and cure them for a big Foreign Shipment, as the Danish Farmers do; it is all done like our Beef ring, one Smoke house finishes it, and shipped together as our wool is handled and paid according to quality. Every farmer should kill enough hogs this winter, to have ham and bacon well cured, served up in cloth, and buried in the oat bin to last all next summer as emergency meat; The clean, dry grain keeps all insects away, prevents mould and gives it a nice nut flavor.

The English market requires a long bodied, bacon hog, killed at a weight of about 180 lbs.

Every farm should have at least 5 pigs now to feed rakings rye etc. to, to finish for home use, and one to three, long bodied sows to keep over to raise pigs from next year, and these sows fed hay, green shavings, sunflowers and a mixture of grain during winter to make them produce 10 pigs each. There is more money in it than wheat, if you learn the business; they can be produced here cheaper than Denmark can; try it. All U.F.A.'s should organize into these Beef and Hog rings and include sheep also, it is the first step in Co-operation and organization and will lead to the collective selling of our beef, ham, bacon poultry and other by-products of the Farm and the ultimate wheat pool on the same basis that the sheep men have based their wool pool, every small community should organize right now for killing for the

threshing. This winter try "jirking" or Drying, some of this cheap beef, and sew up in cloth, and put in the oat bin, for chipped beef gravy, on the farm next summer; I have not seen or had any on any farm in this District.

Henry W. Weed,  
Weed Inspector

Any occupant of unpatented land in this District, if he has land ready for Fall Rye can borrow seed to amount of \$50

## Monitor Wins Final Game Of Season In Ninth Innings

After being on the short end of the score until the ninth the local team took a new lease on life and crowded two runs across with only one down, and set Loyalist back in a close game by a margin of one run.

Glover on the mound for Monitor, pitched a fine game allowing only five hits and had fourteen strike outs to his credit. He should have won by a larger margin but for poor base running and coaching on the part of his team mates in several frames. The locals annexed 14 hits. McGirr making a single, a double and a triple in four times up, while Mewburn made a circuit clout in the 6th frame.

The locals had an excellent chance to score in the second inning with the bases full but Gillman was caught sleeping at third and the side retired with him.

Mewburn started on the initial sack but was switched to right field after making a few miscues, Sonquist taking his place. A heavy cross-diamond wind made it rather unpleasant for the players.

Score by innings:

Monitor 0 0 1 0 0 2 0 0 2 5  
Loyalist 0 0 3 0 1 0 0 0 0 4

Time of game 1:45

The Provincial Government, along with the various city and municipal councils, has been working out a scheme to relieve the unemployment situation throughout Alberta. Work on roads phone lines etc., have been suggested along with government buildings to be erected in Edmonton, as a means of making works but what to do during the winter months seems to be a stumbling block, as the weather is a great factor in holding up outside work. At present there are about 10,000 out of employment in this Province and the same thing is general all over Canada, especially in the Eastern towns and cities.

Business men in the East do not look for better times until next spring and the man out of work has a very gloomy winter before him standing daily in the soup line, in all brands of weather, waiting for his turn to be fed and with the off chance of securing a day or two on a job.

A preliminary estimate of the recent census places the population of Canada at 9,235,000. The gain made since the previous census is given as 2,029,000, the greater portion of which is credited to the Western provinces. All the provinces show an increase with the exception of Nova Scotia

## Wreck Of Giant Dirigible A Most Terrible Mishap

Airship Collapsed When Flying a Thousand Feet Over City of Hull.

Hull, England.—Seventeen officers and men of the United States Navy, and twenty-seven officers and men of the British Navy, met death in the collapse of the great dirigible ZR-2, over the city of Hull.

Every one of the United States men on board the ill-fated craft perished, as far as could be ascertained.

Only five of the 49 who were making the trip in the dirigible prior to the vessel being turned over to the United States Navy, are known to have been saved.

The United States officers who started the trip include Commanders Louis H. Maxfield, Washington; Lieutenant-Commander Emory Coll, Marietta, Ohio; Lieutenant Henry W. Hoyt, Clearwater, Fla.; Lieutenant Marcus H. Esterley, Washington; Lieutenant-Commander Valentine N. Bigg, Brynmawr, Ia., and Lieutenant Charles G. Little, Newburyport, Mass.

The British losses include the famous air veteran, Brig-Gen. E. M. Maitland, Lieutenant A. H. Swann, Lieutenant L. C. Little, Lieutenant R. S. Montague, Flight Lieutenant Thomas, and all the

other officers on board, except Lieutenant Wann, the commander of the ZR-2.

Starting from Howden, Tuesday morning on a test flight to Fulham, the big aircraft had been afloat for 34 hours, at times in bad weather, and was returning to Dulham aerodrome at the time of the disaster, which constitutes the most terrible of its kind in peace times. The dirigible had been purchased by the United States from Great Britain.

While flying at about 1,000 feet over Hull, spectators saw the ZR-2 suddenly seemingly buckle amidships and plunge downward over the city and into the Humber River. One theory of the cause of the disaster is that while the ship's rudders were being tested, the giant craft took a sharp turn, which caused her frame-work to buckle, and that the explosion of a gasoline tank completed the tragedy of the air. The actual cause, however, never may be known. A rumor has been afloat for several days that the ZR-2 was structurally weak, but this was stoutly denied by all authority.

## As West Grows So Will East

Heavy Load of Taxation Carried By Small Population.

Every new settler in the Canadian West means at least one new job for someone in the Canadian East. Those who fear that an immigration campaign that would bring in settlers might add to the unemployment in Eastern Cities should bear this truth in mind. One in the West means at least one in the East.

The present immigration policy tends to ADD TO rather than subtract from the total of the unemployed in Canada. At present a small Western population is bearing the whole cost of the railways, telegraphs, Government and other public services in the West. It is admittedly a heavy load. Though these costs are reduced to a rock bottom minimum, they take from the Western farmer nevertheless, a comparatively large share of his total earnings. Sometimes, in bad crop years, he tends to become discouraged; he may even—in isolated cases—abandon his farm. And when he does, another idle man must also be reported in the East.

But with more immigrants, more settlers, more farms, these overhead costs in the West are reduced. Ten people are paying the bill instead of five. A poor crop does not matter so much. Then costs grow lighter in the only way costs can be lightened. Their numbers increase. Then purchasing power expands. And there is more employment in the East.

The ban on immigration is a step towards greater unemployment—not less. This cannot be too strongly emphasized.

## Congestion Of Fruit In Okanagan

Season is Earlier and Prices are Lower.

Vernon, B.C.—With a lack of orders from the prairie trade, the early fruit harvest in the Okanagan has resulted in a congestion of fruit awaiting shipment. The season is at least two weeks earlier this year in the fruit belt, and the bulk of the orders are not coming in, probably because housewives have not got down to preserving. Prices, however, are lower this season and great activity at shipping warehouses is looked for in a very short time.

## First Car of Wheat Arrives at Calgary

Shipped From Vernon and Graded No. 2 Northern

Calgary.—The first carload of this season's spring wheat has arrived in Calgary. It was shipped by J. S. Galbraith and Sons, of Vernon, B.C., and consigned to Willard Cumming and Co. It graded No. 2 Northern, and was sold at the Winnipeg cash close price of \$1.77 1/2. It is stated that there are about 100,000 bushels of wheat this year in the Vernon district. Most of this wheat will find its way to Europe by way of the Panama canal.

A town cannot grow without business. By helping your local dealer you assist the community.

## Steamboating On Saskatchewan River In The Late Seventies

By O-G-E-MAS-ES (Little Clerk).

(Copyright)

The Hudson's Bay Company had with much energy and considerable expenditure placed two steamers on Lake Winnipeg and several boats on the river above the Grand Rapids, and as this system was fairly successful for transportation of freight, it gradually replaced the Red River cart transport. Occasionally one of the river boats would reach Edmonton; twice I think in one season was the record of the Nor-West, which, by the way, was the most successful craft of them all, carrying two hundred tons on an exceedingly light draft of water.

American captains and mates from the Mississippi and Missouri Rivers were employed exclusively, but our own natives speedily took to piloting and some of them became experts. The crews were all Indians, chiefly drawn from The Pas and Grand Rapids, but a few plain Indians from above Prince Albert would occasionally engage for a trip or two.

I was receiving and shipping freight in the summer of 1877 at Grand Rapids (Mr. Alex. Matheson, transport manager), and when loading the Nor-West on one occasion I noted the big fat Yankee mate who was standing on the deck at the gangway singing a rough chanteuse song to the Indians passing him heavily loaded; from one to two hundred pounds a man being the general load. Occasionally, to hurry matters, he would kick an Indian in the posterior while passing, and break forth into, "Come along! Come along! You sons of —. Come a running," and so on. Amongst the Indians was a wild-looking big chap who hailed from Fort Pitt, with a long plait of jet black hair hanging to his waist, wearing a broad belt of parchment buffalo hide studded with brass tacks, and a big scalping knife, the sheath of which was decorated in the same way. His whole costume consisted of a cotton shirt, a pair of cloth leggings and a breechcloth. I saw this Indian's eyes flash as the mate was doing his kicking stunt, and thought he looked dangerous, so walking down the gangway I tapped Mr. Mate on the shoulder and warned him that this was not a crew of southern niggers, but red Indians, and dangerous men to monkey with. His reply was a stream of profanity. Let me attend to the freight checking and he would hustle the — and so on. I returned to the warehouse and kept my eye on the mate. The big Pitt Indian had a heavy load placed on his shoulders, and down the gangway he went with his shirt fluttering in the breeze. He received a tremendous kick be-

hind, and in an instant Mr. Mate was on his back and the Indian furiously stabbing him. Several of us rushed to the rescue, and it took us all our time to hold the savage, who was in a mad fury, yelling that he had never been insulted before and only death could wipe out the stain. We noted some blood on the knife and thought it was all up with the mate, but fortunately he had managed to twist his body and dodge the knife and was only bleeding from scratches. Never was a man so changed. He was too scared to go back to his duty, as he felt certain either his opponent or the other Indians would scalp him, and we finally had to ship him into Fort Garry by the lake boat. Gradually the Yankee mates were done away with and our steady Scotchmen replaced them. These, though slower, had the faculty of getting on well with the native crews.

Indians dislike profanity, and the Cree, whose language is generally understood throughout the north, have no swear words in their vocabulary. The captain of the Northcoast that summer was an artist in many and strange oaths, and when these failed him in moments of emergency, down went his hat on the deck and on it he jumped with both feet. His desperate language had made trouble on several occasions, and he was warned to guard his speech. We had just loaded the Northcoast with 160 tons of freight for Prince Albert, working day and night as usual at the depot, especially as the water was steadily falling in the Upper River, and away she went. On the evening of next day arrived a canoe with a letter from the captain stating he was tied up with a strike and all his crew on shore. The chief asked me to go up at once and try and settle the difference (as I had managed to do on other occasions), so within half an hour I was on my way up the river with an Indian and bark canoe, and a heavy paddle ahead of us. The scene of the strike was at Chemahwin at the west end of Cedar Lake, and fortunately it being calm, we were able to make the long traverse safely and finally reached the steamer.

Captain — could hardly articulate for rage at every word was an oath. The poor brenner did not seem able to help it. I noted the men all sitting and smoking on the bank and grinning at the boss's discomfiture. I coaxed him into the cabin and told him the situation was "serious one" and he was liable to lose his job if he did not cool down. Well, he was helpless, so asked what I would advise and I gave him this ultimatum. (To be continued)

## Tribute To Late Sir Sam Hughes

Parliamentarians Join in Sorrow Over Ex-Minister's Death

Ottawa.—Parliamentarians and public men from the Prime Minister down have joined in expressing their sorrow at the passing of Sir Sam Hughes, for years one of Canada's outstanding figures in political and military life. Right Hon. Arthur Meighen, the premier, paid the following tribute:

"A truly remarkable man has passed from us in the death of Sir Sam Hughes. His mind was alert and well informed. His heart was a dynamo of energy. Fear was something he knew nothing at all about; indeed, courage was his overmastering characteristic. It dominated his other faculties and directed his career."

"That he has done much for Canada and for the Empire he loved, no one would dare to doubt. At a critical time, his equipment of talent and experience and his extraordinary personality contributed a vast service to this country for which all are grateful, and the memory of which will live as long as our history is read."

## Premier Hughes To Visit France

Will Present Australian Flag to City of Amiens.

London.—Premier William Hughes, of Australia, has left London on his homeward journey. He will spend a week in France and will present an Australian flag to the city of Amiens and will also unveil a cross in honor of Australian soldiers who fell at Villers Bretonneux in 1918.

In conversing with Reuters correspondent, the Australian premier was unable to say whether he would return to the old country before long.

Hon. Mr. Sastri, who is the Indian delegate to the Imperial Conference, left London on the same train with Mr. Hughes, going to Geneva to attend the meeting of the League of Nations.

Winnipeg Old-Timer Dead

Winnipeg.—Robert Leckie, one of the thirty-six registered in the first Winnipeg directory, issued in 1876, is dead here, aged 70. He was born in Kincardine, Ont., and came to Winnipeg in 1874. He established a decorating business which he conducted continuously until his retirement in 1919.

Forward Acceptance

Tokio.—Japan's acceptance of the invitation of President Harding to participate in the conference in Washington on Far Eastern question and disarmament, in November next, has been forwarded to Washington.

## Say Germany Is Insulting Britain

G.W.V.A. Asking Government to Stop Influx of Booklets.

Ottawa.—That large quantities of German booklets, containing insulting references to Great Britain and the other allied nations, were being rushed into Canada, and that the practice must cease immediately, were the opinions expressed by high officials of the Dominion Command of the Great War Veterans' Association. These booklets, it was alleged, were being received by persons in positions of authority and without the consent of the recipients. C. G. MacNeil, secretary of the Dominion Command, G. W. V. A., is taking the matter up with the government, and has forwarded a letter to the secretary of state asking for speedy action in terminating the influx of these pamphlets.

## Indian Natives Riot

Seditious Agitators Cause Open Rebellion in Malabar District.

Bombay.—A grave situation has arisen in the Malabar district, on the west coast of British India, where seditious agitators have been working on the religious fanaticism of the ignorant natives.

Their activities have resulted in serious mass rioting, bloodshed and destruction of property. Military forces have fired upon rioters, causing many casualties. Railway lines have been cut. Post offices have been robbed, and mob law is almost supreme in several small towns. One village, surrounded by a mob, has been repeatedly making despairing calls for help. Military reinforcements have arrived at Bangalore, capital of the district on Monday.

A proclamation has been issued by the British officer commanding troops in the Malabar area. It refers to "open rebellion" prevailing in the district on North Hozani, 38 miles southeast of Calicut. Several murders have occurred, the victims including a military officer and a superintendent of police.

## Russia May Have To Refuse Relief

Soviet Will Not Recognize Debts of Former Regime.

London.—Russia will be compelled to decline British and French financial aid, says the Pravda of Moscow, because these countries have agreed to assist only on condition that the Soviet Government recognize the debts of the former Russian regime amounting to several billion gold roubles. The Pravda, which is quoted in a Reuters despatch from Riga, declares the Soviet Government would prefer to purchase the necessary food itself at a cost of 100,000,000 roubles rather than pay even the interest on these debts amounting to about 500,000,000 roubles.

## First on the Appetite List

ONCE the crispness and charm of Grape-Nuts have been tested by the family, there's one item that stands prominently out in the marketing list thereafter.

That's Grape-Nuts.

The twenty hours of continuous baking have produced, from the natural richness of wheat and malted barley, a food that is uniquely sweet with sugar developed from the grains themselves, and whose crispness and flavor make a delightful appeal to every member of the family.

And Grape-Nuts is soundly nourishing—a great builder of health and strength.

Served with cream or milk, as a cereal for breakfast or lunch, or made into a pudding for dinner.

See that your marketing list includes this delicious, economical food, today. All grocers.

"There's a Reason" for Grape-Nuts

## The Monitor News

W. S. McCulloch  
Editor & Publisher

Thursday, September 1st, 1921

After an absence of two years  
from Monitor we have again  
taken up the duties of getting  
out the News and trust that  
we will receive the same sup-  
port as the News has been en-  
joying during the past six years  
in Monitor.

We note several changes in  
the town, since leaving here,  
and prospects are bright in the  
way of a steady increase in the  
building line.

With the completion of the  
street grading operations the  
town will have a finer appear-  
ance, and a few more trees  
would help things along.

We took a few trips through  
the districts adjacent to town,  
during the past week, looking  
over the crops, oil operations  
and things in general and were  
pleased to note the upturn of  
conditions around here owing  
to better crops, etc., over those  
of previous years.

There appears to be a general  
feeling amongst the farmers  
that the end of the road has at  
last been reached and that a  
period of good crops stretch out  
before them.

After two years or so of city  
pavements and concrete high-  
ways, in Ontario, we did not  
take very kindly to the bumps  
and ruts of the local trails.

No doubt, now the Farmers  
have charge of affairs, there  
will be a change in the road  
building plans of Alberta and  
also in the rural phone lines.

Even if they do prohibit to-  
bacco we can keep on smoking  
some of the brands of cigars

## World Happenings Briefly Told

Good yields are being secured this year by Indians on the reserves in Saskatchewan, according to W. M. Graham, Indian commissioner.

Wireless telephone instruments will be installed on a number of important German express trains and receiving instruments will be placed in hotels and embassies.

Decreases in export of Canadian farm produce to the United States because of the operations of the emergency tariff act, are shown by Canadian Statistical records covering July.

Sweden's total population at the end of 1920 amounted to over 5,904,000, according to the Central Statistical Bureau's preliminary figures just published. This is an increase during 1920 of 57,000, and a record increase since 1861.

Miss Catharine Jane MacKay, a farmer president of the American Home Economics Association, and wellknown throughout Western Canada in educational circles, died at Winnipeg Beach recently. John M. MacKay, of Saskatoon, is a brother.

The report that wild ducks banded near Lindsay, Ont., last year had been shot so far south as the Island of Trinidad, recalls that two ducks were shot in Alberta in 1920 that had been banded in New York State, proving that these birds travel great distances along their air trails.

General Henry Alexander Cockburn, of Middlethorpe, a veteran of the Indian Mutiny and numerous frontier wars, is dead at the age of ninety.

Announcement is made that His Excellency Baron Byng, Governor-General of Canada, has accepted an honorary membership of the Ottawa Rotary Club.

Efforts of workers in Russia to help famine sufferers are hindered by the fact that they themselves are weakened through lack of proper food. Famine is now paralyzing the strong and weak alike, and many men for whom employment is available, are too enfeebled to do anything requiring physical exertion.

## CHECK YOUR BOWEL TROUBLES

BY USING  
**DR. FOWLER'S**  
EXTRACT OF  
**WILD STRAWBERRY**

When you are troubled with diarrhoea, dysentery, colic, cramps and pains in the stomach, cholera morbus, summer complaint, bloody fluxes, or any looseness of the bowels be sure and get a bottle of "Dr. Fowler's" and see how quickly it gives you relief. This wonderful remedy has been on the market for the past 76 years and we wish to warn you against accepting a substitute which may be dangerous to your health.

Mr. Samuel Buckler, Tatamagouche, N.S., writes: "While visiting in Western Canada I had a severe attack of diarrhoea. After trying many proprietary medicines I got no relief but kept getting worse."

I was advised to take Dr. Fowler's Extract of Wild Strawberry, and I lost no time in doing so. I cannot hesitate in recommending it most highly, for when I had not yet taken half the bottle I was relieved. I must say that if "Dr. Fowler's" is given a fair trial it will show its good qualities."

The price of the genuine is 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1383

## Live Stock Industry

Want Action Taken to Secure Market in U.S.

C. W. Peterson, western editor and rancher, suggests the formation of a Canadian pool consisting of government representatives, bankers, breeders, and capitalists to form an effective line of defence in view of the present condition of the live stock industry in Western Canada. He urged that immediate diplomatic negotiations be opened with the United States to procure for Canada free entry for animals and animal products, pleading that even an unlimited overseas market could not be compared with free access to the Chicago market. He believed that if the situation were placed before the Canadian public and they were appealed to there would be no trouble in subscribing \$100,000,000 for the pool.

## Manslaughter In 2nd Degree

Using a razor—bad stuff—but many people do it for their corns. The only remedy that is painless and sure is Putnam's Corn Extractor, which does remove warts and corns, cleans them right off. Refuse a substitute for "Putnam's," 25c everywhere.

## A Magnificent Panorama From Start To Finish

Canadian Pacific Rockies Is Wonder-land of Scenic Splendor.

There are periods in our lives when we all require a change—to live for a time in new environments and scenes—to get away from the things we have been looking at and working with day after day and month after month.

Cast aside your cares for the time being and flee to the Canadian Pacific Rockies for that refreshing balm to tired minds and jaded nerves, that necessarily accompanies a trip into this marvelous country. It is a wonderland of scenic splendor, a land of mountain peaks, exquisite lakes, rushing rivers, stupendous glaciers and a thousand and one other attractions, all at your very door and easy to reach via the Canadian Pacific.

Hotel life, camp life or any life you desire at any one of the nine delightful resorts such as Banff, Lake Louise, Glacier, Emerald Lake and the Lake Wapta and Lake Windermere Camps. Summer tourist fares now on sale to Pacific Coast points offer a splendid opportunity to visit the Canadian Rockies, while the Canadian Pacific operates three trains daily each way, including the de luxe "Trans-Canada" Limited.

Optional route, stop-overs are included, go one way and return another, but let the travel part of your vacation be among its keenest joys by choosing the courteous, comfortable and dependable service of the Canadian Pacific Railway.

Many mothers have reason to bless Mother Graves' Worm Extirminator, because it has relieved the little ones of suffering and made them healthy.

## A Woman Homesteader

City Girl Makes a Success of Farming in Western Canada

Another name added to the list of women who are successfully operating farms in Western Canada is that of May V. Hazlett, an English girl who for four years has lived alone on a homestead in the Touchwood Hills, and made it pay. Her brother, who homesteaded the land, was killed in the Canadian forces at Vimy Ridge, and Miss Hazlett, who was working as a stenographer, and tired of the eternal pounding, determined to go contrary to the advice to sell the farm and though she had never lived in the country, decided to operate it herself. Success has attended her efforts and she now owns several head of horses, a fine bunch of cattle, and has more than one hundred acres under cultivation. She is again reversing the order of things as having built a Western home she is returning to England to marry her fiancé and bring him out to the Saskatchewan farm. She is an ardent advocate of homesteads for women.

Probably the two most awkward things in the world are a woman throwing a stone and a bachelor holding a baby.

Miss Green (at her first ball game)—Isn't the pitcher perfectly splendid? He hits the club nearly every throw.—Boston Transcript.

## Pain In The Loins

Driven Out Quickly

That dragging, wearying sort of pain makes life a misery to many people. This pain is due to a passive inflammation of the adjacent tissue. Because every drop rubs in. More powerful because five times stronger, more penetrating because it strikes through soft tissue, more healing to pain, Nervine Liniment should be always on hand. Sold everywhere in large 35 cent bottles.

## Stake Oil Claims

On Arctic Circle

Oil Claims Extend from Fort Norman to the Rim of the Arctic

Oil claims have been staked along the Mackenzie River right up to the Arctic Circle. The staking extends from a point several miles south of Fort Norman, which is 1,500 miles north of Edmonton, to another point within some fifty miles of Good Hope, a post just sixteen miles south of the Arctic Circle. The total distance of the oil staking along the Mackenzie River in this territory is now approximately 150 miles though not continued over this entire length.

## PAINFUL NEURALGIA

TORTURING SCIATICA

Both Come From the Same Cause—Thin, Watery Blood

Most people think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve in the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease are the same. The pain in neuralgia is caused by starved nerves. The blood which carries nourishment to the nerves has become thin and impure and no longer does so, and the pain you feel is the cry of the nerves for their natural food. You may ease the pains of neuralgia with hot applications, but real relief from the trouble comes by enriching and purifying the blood. For this purpose Dr. Williams' Pink Pills are strongly recommended. These pills make new, rich blood and thus act as a most effective nerve tonic. If you are suffering from this most dreaded of troubles, or any form of nerve trouble, give these pills a fair trial, and you will find ease and comfort that follows their use.

You can get Dr. Williams' Pink Pills from any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Sweden Wants Wheat

A letter has been received by the Vancouver Board of Trade from a Stockholm Broker inquiring into the possibility of Canada exporting wheat to Sweden and it is quite possible that some wheat which is being shipped to Europe from this port via the Panama Canal will find a market there.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and in healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

## Alberta Red Clover

Red clover yielding at the rate of ten to six tons per acre has been harvested at the University farm, Edmonton. The clover is known as Atlaswede, a new variety originated at the farm. It stood from thirty to thirty-six inches high, has a very fine stem and makes excellent fodder.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms, can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

## American Capital Interested

Paul O'Leary, representing a party of Central American capitalists, was in Calgary recently to investigate the possibilities of wheat growing on a large scale in the Canadian West. It is intended to operate thirty thousand acres.

Ask for Minard's and take no other.

## A Cape Coat For Early Fall Days

By Marie Belmont.

The popularity of the cape is not likely to pass—with the summer months. Its pleasing qualities are so much appreciated that there will be many interpretations of it for fall wear. This delightful coat, cut from a heavy silk crepe in a rich shade of brown, is designed with a spreading cape. It is lined with gold, which is revealed when the cape is flung backwards. The sleeves are cut wide at the wrist and are trimmed with beaver. This is also used for the crush collar that is set rather high about the neck. A brown velvet hat with small flowers made of golden ribbon completes the costume.

Keep Minard's Liniment in the house

Of Course Not.

Willie—Mother, Willie didn't give me any of the orange!

Mother—Didn't I tell you to give her the lion's share, Willie?

Willie—Yes'm. But lions don't eat oranges.

Spending your money at home, thereby helping your own town and local merchants.

## Luxuriant Hair Promoted By Cuticura

Cuticura kills dandruff, stops itching, the cause of dry, thin and falling hair. Treatment: Gently rub Cuticura Cream with the end of the finger, on spots of dandruff and itching. Follow next morning with a hot shampoo of Cuticura Soap. Repeat in two weeks. Nothing better than these fragrant, super-creamy emollients for all skin and scalp troubles. Soap 25c, Ointment 15c and 50c. Taken 25c. Sold throughout the Dominion Canadian Drug Stores, Limited, 346 St. Paul St., W. Montreal. **Don't Cuticura Soap where you without using.**

## MONEY ORDERS

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.

## Every Chevrolet Owner SHOULD USE

### MARVEL SILENCERS

to stop forever that annoying "clattery" "click" "clack" caused from side twisting tappets and tappet locks against the engine casing. Silencers are made of clock spring steel, and take two minutes to install without tools. Price \$2.00 per set. Money back after ten days if you want it. Ask your dealer or send direct to us.

## Among Our Exchanges

SETTING IT RIGHT

We wish to apologize for the manner in which we disgraced the beautiful wedding last week. Through an error of the type-setter we were made to say, "the roses were pink." What we should have said was "the noses were pink."

Which reminds us of a similar one, where the editor referred to an old Colonel as a "battle-scarred" hero. In endeavoring to correct this error the following week he called him a "bottle-scarred" hero. When we heard of 'em last the editor was still leading.

## FEELING PRETTY SMALL

One day a fellow was out hunting and during the day a bad storm came on. In order to keep dry he crawled into a hollow log. As the rain got worse the log began to swell until he could get neither way. He really thought his end had come, and he thought of all the wrongs he had done. And when he recalled that he had gone off on a vacation without paying up his newspaper subscription he felt so small that he crawled right out of the log without difficulty.

LOST on the trail near F. Haines, one Buggy Neckyoke. Finder please notify J. W. Horner, 24-35-4, Monitor.
